ANCHOR:- (40 Cr)

1) COUNTRY DELIGHT:- this company is our anchor as it is already near profitability with

Already profitable at ₹45 Cr net profit, 91% retention, This is our capital protection bet. Subscription model means predictable revenue.

MOONSHOT:- (10 Cr)

1) SKYROOT AEROSPACE:- (10CR)

We deliberately skipped over-indexing on Skyroot despite the hype space-tech is binary risk and capital preservation is our first priority. Hence we will be keeping it in the moonshot category which means it is promised to show us profit in the upcoming future.

risks:- IF Vikram 1 fails there is a good possibility of 100s of crore of hardware would be locked with zero to no probability. But if it succeeds the profit generated would be

GROWTH:- (50 Cr)

1) ZEPTO (₹30 Cr)

₹9,200 Cr revenue and losses are decreasing that's the key signal. Zepto Cafe + private labels = path to profitability without depending on delivery margins. 28% market share is real traction. The burn-war risk is real, so you don't go heavier than ₹30 Cr.

2) Sattviko — (₹20 Cr)

22% profit margin is exceptional for FMCG. 300% YoY export growth. You're not betting on them winning long-term alone you're betting on acquisition. PepsiCo or Haldiram's buying them at 10x is a very realistic exit in 3-4 years. This is a calculated asymmetric bet.
